University of Torino

European Institute of Innovation and Technology

Our vision is to become the leading European initiative that empowers innovators and entrepreneurs to develop world-class solutions to societal challenges, and create growth and skilled jobs.

- 1st EU initiative bringing together the three sides of the 'knowledge triangle': business (companies and SMEs), education institutions and research centres.
- aim to increase the cooperation and integration between higher education, business and research to facilitate the transition from:

student to
entrepreneur

idea to product

lab to customer

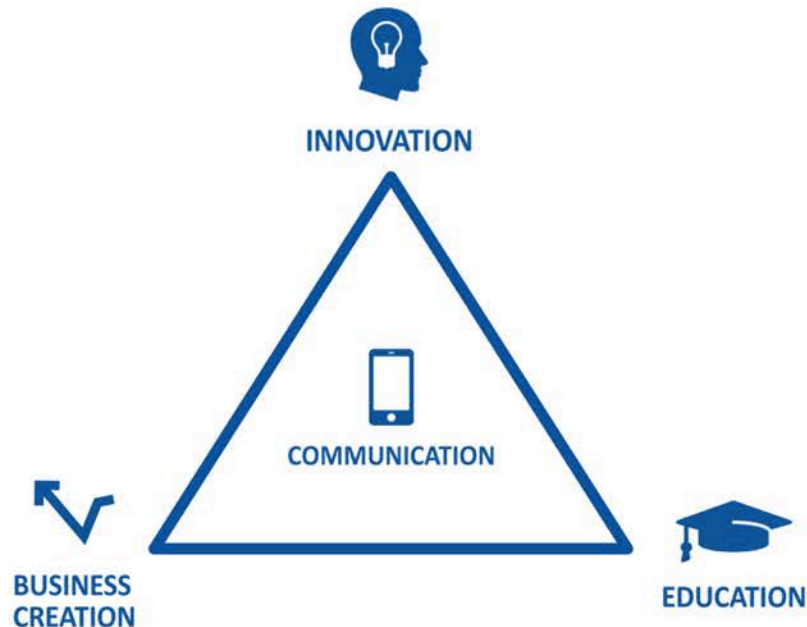

The European innovation paradox

Excellent European research base, dynamic companies and creative talent

Good ideas are too rarely turned into new products or services!

Our **ambition** is to create
a future proof and effective food sector
through a connected food system,
centered on the consumer, built on trust.

EIT Food

EIT Food is a European Knowledge and Innovation Community (KIC), part of the EIT, which was set up to transform our food ecosystem. By connecting consumers with businesses, start-ups, researchers and students from around Europe, EIT Food supports innovative and economically sustainable initiatives which improve our health, our access to quality food, and our environment.
